DETAILED ACTION

Claim Objections

1. Claims 8-12 are objected to because of the following informalities: the phrase "a first and a second operating levers" in line 3 of claim 8 should be reworded for grammatical purposes. Appropriate correction is required. The remaining claims are objected to due to their dependency from claim 8.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1-14, 16, and 17 are rejected under 35 U.S.C. 102(b) as being anticipated by JP-2001247029 (using US Patent 6464044 to Suganuma as an English equivalent).

Re: claims 1, 2, 4-7, 9-14, 16, and 17. Suganuma shows in figures 1 and 2 a brake operating apparatus of a brake apparatus for restricting of a rotating member 16 comprising:

an operating lever 160, operably supported in a movable range including a first position shown in figure 2 permitting the rotating member to rotate regularly and rotate reversely, and a second position restricting only one of regular rotation and reverse rotation of the rotating member and urged from the first position to the second position in a normal state described in col. 19 lines 16-28, and an operation restricting portion

100 contactable with the operating lever at the first position for restricting a movement of the operating lever reaching the second position.

Re: claim 3. See col. 22 lines 24-26.

Re: claim 8. See figure 2 wherein the first operating lever is element 170 and the second operating lever is 160 in one interpretation and the third position is disclosed in col. 22 lines 24-26.

Response to Arguments

4. Applicant's arguments with respect to claims have been considered but are moot in view of the new ground(s) of rejection.

Allowable Subject Matter

5. Claim 15 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
